## DUNN BUILDING COMPANY WINS ABC EXCELLENCE IN CONSTRUCTION AWARD FOR WARRIOR MET COAL BATHHOUSE

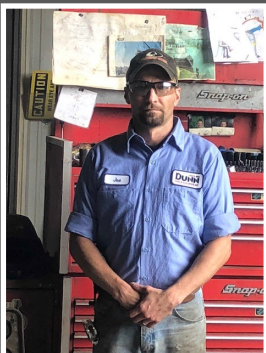

PICTURED LEFT TO RIGHT:  
LUKE NEWELL, WILLIAM CALLAHAN, SETH COLLINS & ANDREW EDWARDS

Dunn Building Company was honored to attend the ABC Excellence in Construction Awards Banquet held on Thursday, November 27th at The Club in Birmingham where we were presented with an Excellence in Construction Award for Warrior Met Coal's New Bathhouse project in Brookwood, AL. This has become something of an annual affair for us—at least 20 awards in the past 15 years—but one we NEVER take for granted.

Thank you, again, to our friends at ABC's Alabama Chapter for everything you do. And congratulations to Project Manager Seth Collins and Superintendent William Callahan for yet another job well done!

Meet the Newest member of our Fabrication Division, Joe Schumann—Fabrication Superintendent. Joe comes to us from Mechanicsville, Virginia and has over 20 years of experience fabricating structural and misc. steel. Joe is also certified for welding stainless and aluminum products.

### CONGRATULATIONS OWEN TROTTER, DBIA

Congratulations to Owen Trotter on successfully completing the requirements of the Design-Build Certification Program. The program, which has been endorsed by the Design-Build Certification Board, is intended to create an accepted and recognized educational standard for experienced, professional and knowledgeable practitioners who possess a qualified and quantified level of expertise in Design-Build.

### SERVICE TO OUR COMMUNITIES

Dunn Building Company supports so many worthy causes throughout the year, and none of them are more personally rewarding than having the opportunity to make a child's Christmas genuinely special. All three of our offices "adopted" an angel this year. We truly are grateful for our employees giving back during the holiday season.

## Dunn Building Company Breaks Ground on New Firehouse Ministries Facility

The Groundbreaking Ceremony for Firehouse Ministries new 28,000 SF facility to house homeless men here in Birmingham was held on Friday, December 21st. The pre-engineered structure will have a fully-functioning commercial kitchen and dining area—as well as administrative offices, case management rooms and exam rooms, plus a lounge area, shelter and courtyard. Craig Fowler will be Dunn's Project Manager and Randy Farris will be Superintendent.

We're genuinely honored to be handling this project, given our longtime support of the Firehouse Ministries—including our Central Area Manager, Luke Newell's service as a member and president of its Junior Board since 2015.
